

Leading IT Partner for the Legal Industry

As a leading IT Partner for the legal industry, we work with law firms of all sizes to improve productivity, security and collaboration.

Founded in 1989, Netrix is a privately held full service IT provider that helps partners operate their firms more efficiently and effectively.

Netrix specializes in the delivery of network infrastructure, data center, security, software development, systems services, unified communications, mobility, audio-visual, carrier and cloud services, hosted services, and managed services, as well as the hardware, software, and services needed to implement and support them. In short, we enable our clients to simplify their technology sourcing and speed deployment.

We make it all work together.

EXPERIENCED AND REPUTABLE

Consistently ranked in the **CRN VAR500** detailing the country's top system integrators, Netrix delivers "True Value" by solving business problems with technology solutions and guaranteed results.

“Netrix understands the unique challenges of the legal industry and serves as a trusted advisor focused on innovation and education.”

GEORGE KAYTOR
DIRECTOR, SEYFARTH SHAW, LLP

STRATEGIC PARTNERS

We work with the industry's best solution providers. Below is an example of just some of the partnerships we leverage.

Fully customizable services for your firm.

Netrix works with clients to fully understand their business objectives and help build a technology roadmap. We can identify ways to help clients run their IT environment in the most efficient and effective ways possible and across all stacks of technology. Netrix teams are built with the brightest minds across different IT disciplines. Clients are comfortable knowing our engineering team has the experience and expertise to understand network risks and are confident knowing we can successfully design, deploy, and support these technologies.

“We have always found that Netrix ‘knows it’s stuff’ and is diligent about making sure we are aware of developments in the technology marketplace.”

DAVE HAMBOURGER
CHIEF INFORMATION OFFICER, CHAPMAN & CUTLER, LLP
