

Teams Rooms-as- -a-Service

Transform Your Meeting Rooms To Teams Rooms With Our as-a-Service Offer

MICROSOFT TEAMS ROOMS-AS-A-SERVICE

Microsoft Teams has seen explosive growth with 91% of the Fortune 100 using Teams as well as over 13 million active users. As a global Microsoft Teams partner, we work with clients to understand how they can consume Teams to increase collaboration and leverage video to remove office barriers. Leveraging Teams for audio/video collaboration is a costly initiative so we have created an inclusive monthly offering entitled Teams Rooms As a Service. We have removed the upfront costs, made the solution an OpEx model and bundled hardware, software, managed services and installation into one monthly cost.

EXCLUSIVE BENEFITS

- Remove the upfront costly capital expenditure and pay for the service on a monthly basis.
- One touch meeting starts reducing the need for your IT department to help you with your meetings.
- Flexible consumption models: Advanced and Ultimate
- Complete Outsourced AV Services with a Service Level Agreement
- Plug and play from day one with pre-programmed bundles ready to use.
- Option for 24x7x365 support where your Teams Rooms are monitored from the Netrix CMC with technical support waiting to take your call should you need help.
- Monitoring platform with usage reporting and analytics on your Teams investment.
- Hardware, Software, Design, Install and Managed Services all in one package.
- Multiple contract extensions/Renewal options.
