

## Legal Industry | Microsoft - Executive Security & Compliance Summit

### 8:30 am Optional Virtual Roundtable – Discovery, Learning & Feedback for Microsoft

Join us before our 9am Kickoff for an optional, roundtable discussion on the topic of Microsoft Security, compliance, and regulations related to cloud-based technology. We'll listen & learn, with the goal of setting context.

### 9:00 am Keynote Kickoff- Addressing the Important Topic: Custodial Data Ownership and Microsoft 365 Doug Splinter, Microsoft Technology Center Director

We hear our Legal industry customers loud and clear when it comes to client requirements around data ownership in a public cloud; Clients want to ensure their data is protected and will not be subject to things like secret subpoenas. Doug Splinter, Microsoft CTO and former Legal Industry IT Director, will chat through Microsoft's position on this topic, and advancements that have been made in recent months as a kickoff.

### 10:00 am Microsoft's Cybersecurity Worldview: Security without compromising Productivity and Tools to Protect your Estate Michael Van Cleave, Microsoft Director of Security & Compliance

In this session, Microsoft's Regional Director of Security & Compliance will talk through our unique position in the Cybersecurity industry and provide a high-level discussion around Microsoft's differentiated security and compliance platform of tools within Microsoft 365, with an understanding of Legal/Client data ownership requirements in the Legal Industry.

### 11:00 am Break

### 11:15 am Identity-driven Security leveraging the framework of zero trust and holistic Threat Protection across endpoints, email & servers Rich Lilly, Partner & Head of Cybersecurity Practice, Netrix

Learn more about how Microsoft 365 Security, particularly Azure AD Premium and Microsoft Threat Protection, can help simplify security for the Legal industry with a focus on identity, telemetry, and automation, while offering a holistic threat protection platform built on a principal of zero trust to bolster your security posture.

### 12:30 pm Optional: Question & Answer with Microsoft and Netrix Opportunity to have a final, open-ended discussion and answer any questions.
